Technology: Laravel - PHP Framework (V 5.1), Google APIs

Database: MySQL

UI/ UX Design: Sketch

Technology and Tools

Building Mobile App

Android: Java for Android using Android Studio

iOS: Swift for iOS using XCode

Challenges & Solutions

Blur the Chat after few minutes

For the non premium user all chats will be blurry after 20 minutes of chats. This functionality is very challenging part of this project.

As we done the proper R&D for the implement this functionality and with the proper database structure we have implement this feature successfully.

Online Offline Status Displaying

This is the smallest challenging part in this project.

As we have done proper R&D and with the proper coding standard we have find the solution of this problem.
